

Compass Sales Solutions Launches A Fully Redesigned Website!

Boise, Idaho – November 2014 – Compass Sales Solutions, the industry leader in sales opportunity software, is excited to announce that we have launched a fully redesigned website!

Because of our consistent growth, we have launched a new website to better serve our customers and their needs. In addition to the existing content, training, and support resources, we have added many new features to benefit our users.

With an enhanced Customer Center, we're consistently adding new videos, live webinars, documentation, support and training FAQ's, as well as helpful docs and live chat options. Coming soon customers will have the option to pay on-line directly from our website.

Troy Casper, President of Compass Sales Solutions feels, "As the primary solutions provider in the industry, we wanted to give our clients the most advanced technology available, not only in our product, but the resources available to them on our website to improve their industry knowledge and help them make more money. This is taking us to the next level in Customer Support and Training."

Go to the "Contact Us" area of the new website to connect to our many resources available by email or phone. We look forward to sharing our excitement with you in launching our new website and improved Customer Resource Center. Please connect with us on Social Media using Facebook, LinkedIn, and Twitter to hear the latest in industry trends and news.

About Compass Sales Solutions:

Since 2001, Compass Sales Solutions has been the leading sales force automation provider for the office technology industry. Compass Sherpa provides a comprehensive suite that automates all disparate sales processes and allows your sales professionals to utilize one tool to completely manage the sales process including prospect/client identification, Outlook integration, product configuration, proposal generation, MPS analysis and mapping, ERP integration, and mobile access via smart phone's and tablets. Compass Sherpa will be the tool your team will **want** to use, not **have** to use.
