

## Compass Sales Solutions Announces Newly Redesigned Movement Forms!

Boise, ID (September 2015) – Compass Sales Solutions, the industry leader in sales opportunity software, is proud to announce the release of the newly redesigned movement forms feature used when configuring multiple devices.

Compass Sherpa movement forms has been modernized with a new form layout and is now even more user friendly. With this new clean layout, you can configure multiple devices with less clicks of a mouse and easily view equipment information all in one area.

Our current movement form capabilities already save our users valuable time, but this new look will enhance your productivity. As with the current layout, once you configure the devices, you have the ability to populate an Excel document that will pull out each device configuration into a multi-tab spreadsheet. This bookmarked spreadsheet is customizable to your dealership needs.

“We are excited to release the new redesigned layout of our movement forms. I feel that our customers will benefit from our changes to the design and will be excited to see the improvements of this new free feature,” states Troy Casper, President of Compass Sales Solutions.

If you are interested in this new free feature or to learn more about it, please contact our support team at [support@compasscontact.net](mailto:support@compasscontact.net), or call our offices at (800) 295-0411.

### About Compass Sales Solutions:

Since 2001, Compass Sales Solutions has been the leading sales force automation provider for the office technology industry in 4 countries with over 8,000 users. Compass Sherpa provides a comprehensive suite that automates all aspects of the sales process and allows your sales professionals to utilize one tool to completely manage the sales process including prospect/client identification, Outlook integration, product configuration, proposal generation, MPS analysis and mapping, ERP integration, and mobile access via smartphone's and tablets. Compass Sherpa will be the tool your team will **want** to use, not **have** to use.
