

Compass Sales Solutions Announces e-views Enhancements for e-automate®

Boise, ID (December 2015) Compass Sales Solutions, the industry leader in sales opportunity software, is proud to announce an enhancement to e-views™ for ECI e-automate® software users. Administrators will now have the option to export lease data directly from e-automate software and import it into Sherpa Lease Tracker. This feature will allow a more streamlined process to help ensure accurate lease data for tracking lease expirations, setting reminders and for reporting purposes.

This enhancement provides customers that carry internal leases with an easier importing process. E-views, located in the e-automate interface through Sherpa, will be available by request. If you are interested in learning more of this new enhancement or to have it enabled, please contact your e-automate Account Manager at eaamsales@ecisolutions.com.

Troy Casper, President of Compass Sales Solutions, says, “This is an exciting enhancement that we can offer at no charge to our Sherpa clients that are utilizing Lease Tracker. We are always trying to make our software as user friendly as possible and this will allow us to do so! “
